Bryce Tham

Software Engineer | Design Thinker | Solutions Architect

brycetham@gmail.com
www.brycetham.com

I am a software engineer passionate about designing impactful, interactive user experiences and architecting scalable software solutions that deliver real-world value.

Education

Stanford University
M.S. in Computer Science, 2019
Specialization in Human-Computer Interaction
4.05 GPA, Stanford HCI Group

University of California, Irvine
B.S. in Computer Science, 2017
Specializations in Information & Algorithms
3.99 GPA, Summa Cum Laude, Honors in ICS

Skills

Programming
★ JavaScript/TypeScript, Python, Java, C/C++

Web Applications
★ HTML/CSS, ★ WebRTC, WebAssembly, React, MEAN Stack

Test Automation
★ WebdriverIO, Selenium WebDriver

Database Management
SQL/MySQL, Grafana, Informatica

Human-Computer Interaction
Design Thinking, UI/UX Design

Other Interests
AR/VR Applications, Computer Games, Mobile Applications, Social Good, Technical Writing

★ denotes highlighted skill

Work Experience

Software Engineer IV | Cisco — Nov 2024 – Present
Previously: **Software Engineer II, III** — Aug 2019 – Oct 2024

- Built out a web client media engine providing a common WebRTC library for the next generation of Webex web applications.
- Contributed to the web client framework in the Webex JS SDK, delivering APIs for Webex integration into third-party apps and services.
- Integrated AI/ML-powered technologies to enhance the in-meeting experience, including noise reduction and virtual background effects.
- Designed and implemented a WebAssembly-based media solution, enabling millions of new users to join Webex meetings for the first time.
- Took ownership of the test automation framework, creating and maintaining jobs to automate tests across all major browsers and OSes.
- Worked directly with customers to resolve critical issues during the COVID-19 pandemic, during which Webex traffic increased by 300%.

Software Engineering Intern | Visa — Jun 2018 – Sep 2018

- Engineered full-stack solutions for the Visa Ask Now platform, implementing stories to enhance internal operations and infrastructure.
- Worked with the service catalog team to normalize the backend database and improve the integrity of the service catalog dataset.
- Created an automated attestation scheduled job with ServiceNow API that administers assessments to CI owners for CMDB certification.

Programmer Analyst Intern | UC Irvine — Apr 2015 – Aug 2017

- Worked with OIT staff and the Data Warehouse team to develop and maintain backend database systems for the University of California.
- Evaluated and composed reports for over 150 database tables and jobs during the company's successful migration from Talend to Informatica.
- Developed and tested dozens of Informatica ETL mappings, sessions, and workflows as part of the Legacy ODS Conversion project.

Featured Projects

Webex Web Client | Cisco
Over half of all U.S. workers are either working hybrid or fully remotely. How might we deliver a fully-featured meeting experience in the web browser while simultaneously simplifying access and reducing barriers to joining?

🏆 Connected Recognition, Webex Playtime People's Choice

Elevate | Oracle Cloud Innovation Accelerator
Low technical literacy and negative social stigma make it difficult for those formerly incarcerated to find a career. How might we create a mobile platform that navigates ex-convicts through the job application process?

🏆 1st Place, Google Prize, Palantir Prize, Facebook Honorable Mention

QuizBot | Stanford Interaction Design Lab
Advances in conversational artificial intelligence enable more engaging and effective ways to teach factual knowledge. How might we leverage AI to enable college students to study through natural-language conversations?

🏆 CHI 2019 Accepted Paper

The Smart Worker | UCI Institute for Software Research
Augmented reality has the potential to greatly reduce errors and increase productivity in the manufacturing space. How might we create an AR solution that provides effective just-in-time training for factory workers?

🏆 UROP Fellowship Award
